

Mississippi Conservation Reserve

Mississippi Alluvial Valley, Mississippi

BY THE NUMBERS

207

ACRES replanted this year

90,250

TREES planted this year

Tree species planted:
Cypress, Southern red oak, Water oak, Shumard oak, Overcup oak, Nuttall oak, and pecan

IMPACT OVER 40 YEARS

16,012 tons
↓ Net Carbon Dioxide

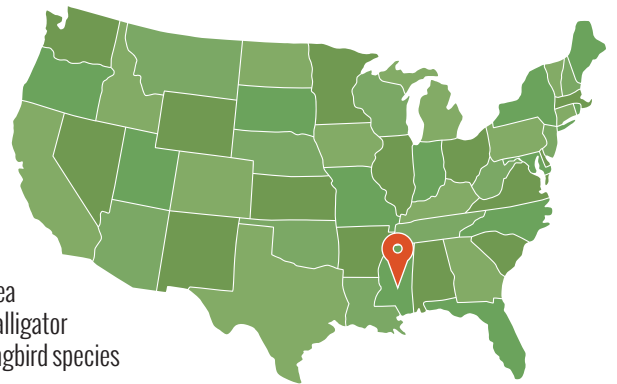

1,769 tons
↓ Air Pollution

4,566,650,000
↑ Gallons Rainfall Interception

REASON FOR PLANTING

- Reestablishing forest cover to improve water quality in waterways running through Mississippi Delta
- Providing critical habitat for area wildlife including black bears, alligator snapping turtles, and many songbird species
- Reducing soil erosion and flooding caused by deforestation

“Through your support, we are able to protect environmentally sensitive land, decrease erosion, restore wildlife habitat, and safeguard ground and surface water.”

—Scott Lemmers
Director of Freshwater Programs
The Nature Conservancy
